

Wolfram Research has made Version 3 of *Mathematica* available for use on your NeXT system for a nominal price, as our contribution to the preservation of this wonderful computer system. Please understand that we have not sold or supported *Mathematica* on NeXT for over ten years, and we cannot provide technical support of any kind for this version. If you find *Mathematica* useful and need assistance or more sophisticated features, we suggest that you purchase the current version for one of the many platforms we support, including Macintosh OS X, Windows, and Linux.

Visit us at www.wolfram.com/mathematica for more information and pricing.
